

New Partnership offers

THE ONSET of the yearling sales always heralds renewed interest in our successful and popular Kingsley Park Partnerships.

Readers of this magazine will be aware of the high-profile winners who have graced the colours of our partnerships across the years – Dark Vision, Rose of Kildare, Poet's Society and Dancing King to name but a few. Once again, we are delighted to offer prospective partners, old and new, the chance to join in one of our partnerships and to enjoy the thrill of owning horses like these for just a fraction of the cost.

Our partnership offers this autumn follow the now familiar styles of our existing partnerships. Two of them will involve horses purchased as part of the current round of yearling sales, while the other will comprise two horses to be purchased at Tattersalls Autumn Horses in Training Sale, due to take place at the end of October.

Anybody interested in one or more of these partnerships should contact the racing administration team at Kingsley Park on 01969 622237, or by email to info@johnston.racing.

KP 38

Kingsley Park 38 follows our standard partnership model. It will consist of 20 shares in three yearlings to be purchased in the current round of yearling sales, with a view to racing for the partnership in 2024/25.

Prospective partners can secure a share either by (a) making a one-off payment of £8,750 into the partnership bank account, or (b) by paying a deposit of £3,850 and setting up a standing order to pay six, monthly instalments of £900. For each of the three horses taken on into a second year of training, a further payment of £1,900 will be required (or 12 monthly instalments of £170) in November 2024.

Johnston Racing Limited will hold one 1/20th share at no cost, but will waive its usual 5% commission on sale.

KP 39 - GOLD

Kingsley Park 39 – Gold is similar to the standard model, but it is anticipated that the yearling purchase costs will be at a higher level. It will consist of 20 shares in three yearlings to be purchased in the current round of yearling sales, with a view to racing for the partnership in 2024/25.

Prospective partners can secure a share either by (a) making a one-off payment of £16,450 into the partnership bank account, or (b) by paying a deposit of £7,700 and setting up a standing order to pay six, monthly instalments of £1,550. For each of the three horses taken on into a second year of training, a further payment of £1,900 will be required (or 12 monthly instalments of £170) in November 2024. Johnston Racing Limited will hold one 1/20th share at no cost, but will waive its usual 5% commission on sale.

KP 40 READY TO RUN

Kingsley Park 40 – Ready To Run.

This partnership follows on the success of previous 'ready to run' partnerships, which consist of two horses, purchased at the Horses-in-Training sale with a view to racing across 2023/2024, and then being sold at the 2024 Autumn Horses-in-Training Sale.

It will consist of 20 shares in these two horses and will last until November 2024. Prospective partners can secure a share either by (a) making a one-off payment of £6,000 into the partnership bank account, or (b) paying a deposit of £3,000 and setting up a standing order to pay six, monthly instalments of £600.

Johnston Racing Limited will hold one 1/20th share at no cost, but will waive its usual 5% commission on sale.

As ever, these new Kingsley Park partnership offers are underpinned by the two essential and re-assuring pillars of the Kingsley Park Partnership brand.

Firstly, the partnerships are underwritten by Johnston Racing Limited.

This guarantees that no partner will ever be asked to contribute more than the sum to which they agreed at the outset of the partnership.

Secondly, the partnerships are charged Johnston Racing's inclusive daily training fee; this includes the cost of all veterinary treatments and medical costs. So there will be no nasty surprises, cost wise, if one of the horses needs treatment.

Lastly, people thinking about assuming sole ownership of a horse in the future would do well to gain some experience in a partnership, as, especially with a number of horses in a partnership, you will gain an insight into things you might not previously have considered, e.g. how much it costs to enter certain races at certain tracks. ■

A STEP up in trip to a mile seemed to prove the key to an improved performance by Rosenzoo, owned by Kingsley Park 37 – Gold, at Kempton Park on September 13.

After three runs in maiden company over the midsummer months, the Zoffany colt made his debut in nursery company at Newcastle in mid-August. Prominent throughout, Rosenzoo gave a good account of himself at Gosforth Park in finishing third to Star of Lazise, beaten by just a length and staying on best of those horses which had raced prominently in the early stages.

At Kempton Park, Rosenzoo faced six rivals in a nursery event over a mile. The course and distance winner American Tale headed the market, while Rosenzoo carried joint top weight. Richard Kingscote took the ride on the Kingsley Park colt.

In the early stages Hadrian's Wall took the lead, with American Tale racing wide and prominently. Rosenzoo raced up with the pace, but when turning into the straight he had to give best to American

Rosenzoo off the mark at Kempton

Tale who seemed to be travelling strongly.

Making good headway once in line for home, Rosenzoo came to challenge the leader on the inside with a furlong to race. Pushed out by Richard Kingscote, the colt stayed on well to pull clear of American Tale, scoring by two and a quarter lengths, with Alfred over three lengths back in third.

Fancied to follow up at Yarmouth on September 19, Rosenzoo failed to reproduce his form, perhaps finding the

softer underfoot conditions not to his liking.

Rosenzoo is out of the Catcher In The Rye mare, Rosenreihe, the winner of the 2008 renewal of the Preis der Diana, the German Oaks. That makes him a half-brother to some useful sorts in Savvy Six (by Pour Moi), Ruling (by Camelot) and the Listed winner, Rose Rized (by Authorized). ■

Rosenzoo wins under Richard Kingscote at Kempton

Daydream believer

THE KINGSLEY PARK partnerships enjoyed their second win of the month when Mister Daydream, a Make Believe colt owned by Kingsley Park 32 – The Believers, landed a Bath nursery on September 16.

Mister Daydream had almost opened his winning account at Musselburgh on his second career start. Racing in a seven-furlong novice event, the Make Believe colt led into the final furlong but was just run out of things by the odds-on favourite, Consoling, in the shadow of the winning post.

At Bath, six went to post for the nursery over a mile, with Mister Daydream starting as the outsider of the party. Ross Coakley took the ride.

Quickfire went into the lead from the outset, but Mister Daydream, who had been drawn on the outside of the field, took over after a furlong or so. Turning for home, Mister Daydream had a clear lead, but Quickfire began to mount a challenge on his outer. The Make Believe colt responded well, and despite hanging to his left in the final furlong he kept on strongly to score by half a length from Tactical Control, with Centurion a head back in third.

Mister Daydream is out of the Galileo mare Teo's sister, who, as her name suggests, is a full sister to the dual Group 1 winner and sire, Teofilo. She won a Leopardstown maiden

KP 32 - The Originals' Mister Daydream

over seven furlongs on debut for Jim Bolger.

Hopefully, Mister Daydream will improve for time and distance and make up into a nice three-year-old for the partners. ■
